KIDS KLUB VISION & MISSION

VISION

- To be the recognized and respected leader in providing services to children and families in an educational and nurturing environment that supports the community.

MISSION

- Our mission is to provide family, youth and child services in a safe, structured, and nurturing environment through a team of dedicated professionals.

PROGRAMS

BEFORE SCHOOL *start the day right*

Mornings are filled with activities to help “wake the brain” as children arrive and begin their day. Students are given the opportunity to choose activities based on their interests and engage in structured activities. A nutritious breakfast is included in the cost of tuition. Homework assistance is always available.

AFTER SCHOOL *educational & fun*

Kids Klub staff ensure all children arrive at the site after school ends. Students complete “brain break” activities and enjoy a nutritious snack. Homework assistance and tutoring take place every day after school. Kids Klub provides an opportunity for physical activity each day through a designated time to focus on health, wellness, and fitness.

FULL DAY & VACATION *hands on learning experiences*

Kids Klub offers learning opportunities all year round! During school vacations or summer months, our programs offer a wide variety of STEAM curriculum, hands-on learning experiences, field trips, site visitors, and service learning.

Summer learning is a great way for children to not only make lifelong friends but to also mitigate summer learning loss while they are out of school! Our summer programs include a nutritious breakfast, lunch, and snack each day. Children stay active and fit by participating in many activities both indoors and outdoors.

MESSAGE FROM THE
EXECUTIVE DIRECTOR

Dear Friends,

Thank you for making 2017 yet another remarkable year for Kids Klub!
This year marked **30 years** of service for the organization. Our dedicated staff has done an incredible job at expanding our outreach while strengthening our programs and services.

Kids Klub is stronger than ever due to our continually expanding community who comes together to donate time, resources, and talent in support of our important mission.

This year has been a great opportunity for us to focus our attention on what makes Kids Klub stand apart, such as quality education and diverse enrichment programs.

Thank you for wholeheartedly supporting our students and our program. We are looking forward to much more in 2018!

2017 AT A GLANCE

GROWING & LEARNING

Kids Klub has had a busy year! One of our exciting new changes has been a brand new mobile/responsive website, unveiled in July of 2017. This new website makes it simple to see the programs we offer and find information at a glance. Our purpose-driven design fits today's families who are using a variety of devices to gather information online.

As an added layer of security, Kids Klub has also recently upgraded our billing/data system to include monthly cloud back up. The Procure Cloud provides secure access from any Procure computer with a high speed internet connection at home, the office, remote laptop, etc. Procure Cloud uses the highest standard in online security (SSL). As an added benefit, nightly back ups occur automatically to ensure all of our data is safe.

Our summer learning program has continued to progress in North Providence. Students attending our Kids Klub sites in North Smithfield and Woonsocket had the opportunity to participate in summer camps at any Dr. Day Care locations.

Enrichment Programs have continued to be a huge success at Kids Klub! Families and children are enjoying the wide variety of enrichment options.

The Klub House Rock! Annual Fundraiser continued to be a great family event in May of 2017. The event was filled with fun prizes, food and entertainment, as well as raffles and silent auctions.

In February 2017 Kids Klub held a contest asking students to write why they feel teamwork is important. Three lucky winners were chosen to win tickets to a PC Friars basketball game- and they got to "high five" the players on the court!

Students also entered a contest to receive a free week at Coldspring Resort in New Hampshire! Premere from Kids Klub was this year's lucky winner! Premere attends Leo Savoie Elementary School and Kids Klub Pothier in Woonsocket. Read Premere's winning essay:

"Hi Kids Klub, my name is Premere I just turned 7 this month. I am in first grade at Leo Savoie. I live with my foster parents Holly and Paul and our dog Harley. I like Kids Klub more than school because I am on the autism spectrum and at Kids Klub I can have fun and be myself. I think our family should go on vacation because we always do fun things together but we have never been on a family vacation and I think we will have fun together if we could go and we could take friends too! P.S. I can't read or write yet, so my foster mom wrote what I said."

Kids Klub also held its annual Thanksgiving card contest again this year. This is the 27th Annual Holiday Card contest. The winning artist was Troy Jones, from Kids Klub McGuire. His design was printed on the Thanksgiving card that was distributed to over 3,000 homes and businesses.

BEFORE & AFTER SCHOOL PROGRAMS

Kids Klub students can receive care and education when the site opens until the beginning of school, and immediately following school dismissal until the site closes.

An academic focus is very important to Kids Klub. Every afternoon, students receive homework support and/or tutoring. During this time, students are given the opportunity to work with a Kids Klub teacher in a small group setting. In addition, Kids Klub encourages peer-to-peer collaboration between the students to assist with learning. After students have completed their homework, there is time designated for journal writing and reading.

Kids Klub's curriculum is designed to engage students from grades K through 5. Activities are developmentally appropriate using a mixture of grouping styles (i.e. free choice, small group, large group, individual activities) based on age, interest, and ability. The curriculum is developed by a team of school age professionals that meet monthly to assess outcomes and objectives of the program using the RIPQA Tool and aligning with Common Core. Kids Klub's Educational Enrichment Coordinator oversees the curriculum, enrichment activities and the educational field trips. Kids Klub has an Educational Concepts Framework for the year which lists monthly themes and topics of study. A monthly calendar is created from the Educational Concepts Framework to provide activities to help students become more familiar with the theme. Copies of these are made available each month so that if a suggestion or feedback is given, Kids Klub can incorporate feedback to strengthen the program.

Educational Curriculum Calendar Guide

The first day of each month the KSPD (K-5 School Parental Development) Calendar is released. What to know: A 12-month chart is provided. This answers the students' knowledge on the monthly line and is a great resource for the teacher.

Translanguaging days are planned for each month to explore the students' interests based on Decisions of the NYSL Chart.

The second to twelfth of this month is the additional to add helpful activities, using the Teaching Tolerance website.

The first Friday of this month will incorporate a STEAM (Science, Technology, Engineering, Art & Math) activity.

Educational Curriculum Calendar

Teachers complete weekly lesson plans aligned to both Common Core and the Kids Klub curriculum. Our curriculum is revised annually based on teacher and parent feedback to inform our annual Educational Concepts Framework.

465 HOURS OF
STEAM LEARNING

Throughout Kids Klub's monthly curriculum and enrichments, STEAM is incorporated. The children use math when they are measuring during cooking, and science for mixing materials together. During music they use math to count notes. The children use art and math when they are creating three dimensional objects. Students use technology with the use of the site tablets for educational learning and researching. These curriculum activities reinforce the knowledge and skills needed for in-school success.

“Kids Klub is really fun and we get to play with our friends and they let us play with balls and do group games, so it’s really fun to be here.”

Ryan Hammoud, age 9

During 2017, 42 Enrichment Programs were offered throughout our 7 sites. Of these, 22 different Enrichment Programs were provided. This totaled 252 hours of Enrichment Programs for the year. Many children chose to attend multiple Enrichment Programs to total 740 student spots.

“

I like Kids Klub because Kids Klub lets us play cool games and go to fun enrichment programs.

Victoria Atamanchuk, age 7

ENRICHMENT PROGRAMS

Animal Care Responsibility by Ocean State Animal Coalition provided children with tips on how to take care of animals.

Recreational Backyard Fun was a great enrichment to promote teamwork and active play.

The Engineering Extravaganza enrichment provided lots of hands-on fun and learning.

H2K Fitness provided a Yoga enrichment that taught different poses and meditation skills to our students.

Kids Klub offers quality comprehensive after school Enrichment Programs that emphasize fun activity-based learning that reinforces the knowledge and skills needed for in-school success. Kids Klub's Educational Enrichment Coordinator oversees the enrichment programs to ensure the programs reinforce what students are taught in school.

Enrichment programs ensure all students are able to experience fun activity-based learning through quality comprehensive after school activities.

The following are just some examples of Enrichment Programs offered in 2017:

- 1 on 1 Basketball
- Animal Care Responsibility by Ocean State Animal Coalition
- Animal Experiences
- Audubon Society of Rhode Island
- Biomes Marine Biology
- Comic Illustration by Tim Jones
- Common Sense Chess
- Country Jamboree Line Dancing by Texas Roadhouse Dance
- Engineering Extravaganza by Marissa Bianco

- Farm Fresh RI
- Fun with Fish! by the Woonasquatucket River Watershed Council
- GAMM Theatre's Drama Club
- H2K Cardio Dance
- H2K Cardio Kickboxing
- H2K Yoga
- Hydroponics
- Recreational Backyard Fun by Marissa Bianco & Fernando Torres
- Rhythm Room
- Roger Williams Zoomobile
- Save The Bay Theatre
- Yoga by Kimberley Roles

Globe Park Elementary School made changes to their lunch menu after a Junior Iron Chef competition by Farm Fresh RI. This enrichment taught students healthy eating habits and cooking skills.

COMMUNITY PARTNERSHIPS

Throughout the year Kids Klub partners with local community organizations. These partnerships strengthen our programs while supporting our community. We have been honored to have many community visitors to our sites as well as attending local events in our communities.

The following are just some examples of who Kids Klub partnered with in our community this year:

FIELD TRIPS

EXTENDING LEARNING

Field trips and on site visits provide unparalleled opportunities for learning. They provide children with opportunities for hands-on experiences and background knowledge that they may not receive in a classroom. Field trips are both fun and educational! Kids Klub field trips are aligned to weekly and monthly curriculum themes. At Kids Klub, field trips provide a unique opportunity to expand and further enrich the curriculum. Students are immersed in sensory activities and build an appreciation and awareness of their community.

Studies published by RAFT, Resource Area for Teaching, show that

“Teachers who conduct hands-on learning activities on a weekly basis out-perform their peers by more than 70% of a grade level in math and 40% of a grade level in science.” - www.raft.net

Free field trips and on site experiences were possible due to the HSLI summer learning grant, funds raised for the Kids Klub Fund, and from the Feinstein Jr. Scholar program!

“

“Save the Bay was my favorite field trip when we went on the boat because we actually went into Narragansett Bay, which I’ve never done before, and we got to catch fish with a net, which again I’ve never done! I’ve never seen a live squid before and we saw those which was awesome. We also studied plankton, and I learned that 50% of our oxygen is made from phytoplankton. I love field trips because we get to leave the site and have fun experiences with our friends!”

Max Ramirez, age 10

LEARNING DOES NOT JUST HAPPEN IN A CLASSROOM.

Summer is a unique opportunity to provide hands-on learning opportunities for children that are both academic and fun. Summertime is when the very real phenomenon called “summer learning loss” occurs if children and youth are not engaged in active learning.

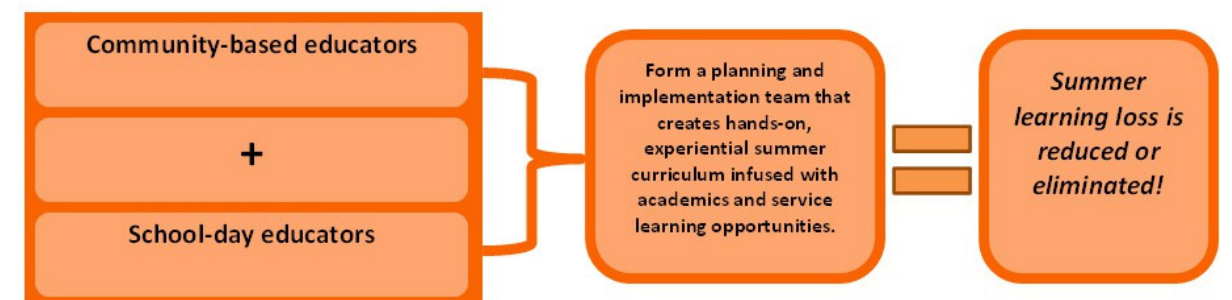

Research demonstrates that all children, regardless of their socioeconomic status, lose up to two months of math computational skills, while children from lower-income situations also may lose up to two months of reading skills. Kids Klub's focus on summer learning helps prevent the summer slide!

“ I had a lot of fun being here at Summer Camp. I would rather be here than on my phone all day! Nola Saint Germain, age 10

ABOUT HSLI SUMMER LEARNING

The Hasbro Summer Learning Initiative (HSLI) Grant is awarded to programs that make it imperative to have service learning at their Summer Learning Program as well as reduce learning loss over the summer. This grant, with the collaboration of North Providence School Department (NPSD), has offered Kids Klub the opportunity to work alongside NPSD teachers who educate and assess the children over a six week program.

Kids Klub collaborates with the Afterschool Leadership Circle (ALC), a statewide network of Rhode Islanders who support quality afterschool and summer learning opportunities for young people. The ALC encourages all educators to rethink how, when, and where children and youth learn to ensure their success.

ABOUT
SERVICE LEARNING

The students visited Cricket Field to do multiple trash and weeding clean ups, and the senior campers created the scavenger hunt for the park.

The students coordinated a Walk-A-Thon to and from Cricket Field, where the students raised money for the Woonasquatucket River Watershed Council.

The North Providence HSLI Kids Klub program "Adopted-a-Spot," where they designed and painted two picnic tables to be donated to Cricket Field.

At the culminating event's ribbon cutting ceremony, student leaders invited the community and local leaders to hear about the program, unveil the picnic tables, and tour the clean-up area at Cricket Field.

Kids Klub encourages the development of life skills, respect for others, and positive social interactions through a variety of service learning projects and programs. Service Learning is a hands-on and student-centered approach to learning, through instruction and reflection, which provides a meaningful experience to community service. This process is important to Kids Klub, in showing students how they can make an impact in their own communities, no matter how large or small, while also teaching leadership skills and responsibility.

Through our partnership and grant with HSLI, Kids Klub authentically and robustly makes service learning the core of our curriculum. Children and youth, over the course of a six-week, thirty-day program, become advocates in their own learning. The curriculum's focus on service learning allows children and youth to become more aware of their community by identifying

issues and concerns, and then creating active solutions that ultimately lead to stronger civic engagement.

In 2017, the North Providence Kids Klub Hasbro Summer Learning program's service learning project was to support the Woonasquatucket River Watershed Council. This fit in with the overall theme of health and ocean-themed curriculum. The theme "Making Waves: Through Engineering, Literacy, Science, and Service Learning," led the students interest in keeping waters clean.

For their service learning project, the students voted and chose a water-related cleanup. Students researched local waterways and chose the Woonasquatucket River at Cricket Field, near Greystone Elementary School in North Providence, as their focus.

Photo bottom right
Culminating event held at Cricket Field in Johnston

The students then divided themselves into committees: Fundraisers, River Rappers, Ocean News Crew, and Picnic Pack. The Fundraisers were in charge of holding bake sales, a used book sale, and back to school sale. The River Rappers created songs about keeping waters clean and the Ocean News Crew made a video report on different sea life, both of which were shown in our culminating video. The Picnic Pack designed and painted two picnic tables to be donated to Cricket Field.

The students visited Cricket Field to do multiple trash and weeding clean ups, and the senior campers created the scavenger hunt for the park. After the students "Adopted- A-Spot," they held a Walk-A-Thon from Greystone Elementary to Cricket Field, where they unveiled the picnic tables and discussed their service learning project to parents, community members, school department officials, local leaders, and Mayors in both Johnston and North Providence.

With the Walk-A-Thon and fundraising sales that the children held, they raised a total of **\$1,341** for the Woonasquatucket River Watershed Council!

The students plan to continue their service learning at their newly adopted spot throughout the school year, by visiting on a schedule to continue clean-ups and upkeep. The Scavenger Hunt the students created will also be available for anyone to use at the park.

Check out our video about the event here: bit.ly/KidsKlubHSLI2017

STUDENT-LED SERVICE LEARNING

Allowing students to evaluate and choose a service learning project is important to Kids Klub. This year's service learning project was determined after the senior campers (6 children who attended the program all 3 years) went to Cricket Field to meet the River Rangers to do a needs assessment. They learned that the park needed weeding and trash pick-up, a scavenger hunt, and picnic tables. Helping to make improvements to their community and to improve the waterways was important to our students.

IMPACT STORIES

MAKING A DIFFERENCE

Ava, now in fourth grade, has been in our summer learning program for two years. When we first met Ava last year, she was very soft spoken and kept to herself, reading a 300 page book any opportunity she had. At the start of the summer this year, everyone expected her to be the same tiny, quiet, and reserved girl she had been the year before. Within the first week, her small size was no comparison to her large voice. She stood up for herself when she had an idea that other children didn't understand, asking the teacher if she could please take a moment to explain herself to her peers in her decisions. When Hasbro visitors had come to do activities with the children, she immediately chose the role of the speaker in the presentation, to the group of her peers and many adults. This sense of leadership had developed strongly from week to week, and we couldn't be prouder of her in carrying this new confidence she found within herself.

“

"Awesome program, thank you! Wow! Great job to you and your wonderful staff! We could not have been more pleased with you and your awesome program. Thank you! We look forward to next summer with Ava and to the summer after that for both my girls!"

- Erica G., Ava's mom

Hailey has been in our program for two years, graduating to middle school after this summer. At the beginning of the program she was excited to be back and see her friends and favorite teachers, but wasn't as excited about learning during the summer. When she did her ecomap, she made a few connections to her family, neighbors, and home - all things important to someone who

has been adopted. During the summer, we saw improvement in her leadership skills as well as engaging in learning and hands-on activities. Her design was chosen for our culminating event invitation and she was chosen to be on the fundraising committee, building relationships with the Superintendent, School Department officials, and local businesses. By the end of the summer, Hailey had over 15 new connections with people or places, due to her experiences. What we saw written down on the final assessment of the ecomap, we had already witnessed first-hand in the weeks passed, in her dedication and enthusiasm to learning and building relationships in her community.

ANNUAL FUNDRAISER

KLUB HOUSE ROCK! 5K

Every year Kids Klub hosts a fundraiser to benefit the Kids Klub Fund. The 2017 event was held on Sunday, May 15th from 8:30-11:30 am at Johnston Memorial Park.

Many family friendly activities were offered during this event, such as face painting, a duck pool, and field games. Children ages 12 and under were able to participate at no cost.

This was the 12th annual fundraising event. The Kids Klub Fundraiser event started in 2006 as a comedy show and was known as Fool's Night Out. In 2013, the Fundraiser was renamed Party At Pearl, held at the Pearl Restaurant & Lounge. For our 2014 Fundraising event, it was decided to rename our Event to Klub House Rock! In 2015 we decided to host a fun family event that everyone in our programs could participate in together, so we began hosting a 5K.

The Klub House Rock! 5K fundraiser raised **\$5,852.88** in profit to support educational field trips, scholarships, and enrichment programs for children in Kids Klub.

FUNDRAISER

OUR TEAM

Our Kids Klub sites are managed by a school age director, referred to as an Administrator, as well as an Assistant Administrator, who are responsible for lesson planning, curriculum, and creating a safe, healthy, structured and nurturing environment. Teacher Assistants in each classroom help to supervise and interact with children to facilitate their play and learning. Kids Klub's Educational Enrichment Coordinator oversees the curriculum, enrichment activities and the educational field trips. The Executive Director oversees program management and all aspects of the Kids Klub program.

The Advisory Board offers advice and support to the Kids Klub executive staff. The Fundraising Committee and Fundraiser Volunteers plan and execute the annual fundraiser.

THANK YOU
TO OUR SPONSORS

The Feinstein Foundation donated Feinstein Jr. Scholar cards to each of our students

Our program would not be possible without you! Thank you to everyone who donated their time, funds, and gifts. We truly value the support we have received from local community organizations, volunteers, community members, local leaders, public schools, and people like you.

We hope that we can count on your support as we plan for next year’s programs. Your donation supports the Kids Klub Fund that enhances our educational programming through offering field trips, scholarships, and enrichment programs that would not be possible without your help.

GET INVOLVED

We appreciate any support you can give Kids Klub!

Here's how you can get involved and make a difference in a child's future:

- ☐ Volunteer at a Kids Klub site *(for security reasons, background checks and fingerprint checks are required, our HR office will contact you with details)*
- ☐ Volunteer to run an Enrichment Program
- ☐ Join the Kids Klub Advisory Board
- ☐ Volunteer for the Klub House Rock! fundraiser
- ☐ Volunteer in a different way
- ☐ Make a secure donation online at www.kidsklubri.com/support-kids-klub

Please visit our website www.kidsklubri.com to learn more, or call us at 401.723.2277.

Visit our office at
203 Concord St, Suite 301, Pawtucket, RI 02860 or
email info@kidsklubri.com.
