MESSAGE FROM THE EXECUTIVE DIRECTOR

Dear Friends,

What a great year 2018 has been! For over 30 years, Kids Klub has been a partner with our communities, striving to uphold our mission to provide family, youth and child services in a safe, structured, and nurturing environment through a team of dedicated professionals.

This year has brought a few changes for Kids Klub – our new Home Office was an exciting change! We relocated from Pawtucket to Smithfield this summer. We also changed our annual fundraiser, returning to a night out with families, friends, and supporters. We were awed by the level of support that we saw this year, raising more than twice the amount compared to last year. We are so honored by the support that we received for this event!

Kids Klub is proud to work with a wide range of dedicated caring individuals and organizations to provide amazing opportunities for our students.

Alicia Gloria

ALICIA GLORIA
Executive Director

To supplement the Globe Park Elementary School theme "Choosing Kindness," Kids Klub Globe students created a vending machine full of items that say "kindness."

2018 AT A GLANCE

This year, our Kids Klub administrative team saw a big change - we moved to a new location! Our Home Office relocated from Pawtucket to Smithfield. This new location provides our team with a great new meeting space and new opportunities for growth. Stop by and visit us at 1201 Douglas Pike, Suite 4!

Building our students' technological literacy and providing new experiences has always been important to Kids Klub. This year, each site purchased a Kindle Fire for student use. These Kindles have been used for reading, learning and educational apps and games.

Our summer learning program has continued to progress in North Providence. Students attending our Kids Klub sites in North Smithfield and Woonsocket had the opportunity to participate in summer camps at Dr. Day Care Learning Center.

Enrichment Programs have continued to be a huge success at Kids Klub! Families and children are enjoying the wide variety of enrichment options.

The Klub House Rock! Annual Fundraiser was a great event in 2018! This year's event had increased connections with the community as we celebrated together at a wine and beer tasting, as well as raffles and silent auctions.

During April break, Kids Klub students made paper airplanes with dollar bills, "Flying Dollars," to see which one could fly the farthest, while also learning about giving back to the community! The winner was Josiah from Kids Klub Whelan. There were 36 participants, Josiah won half (\$18) and he donated the remaining dollars to the Friends of the North Providence Animal Shelter!

In February & December 2018 Kids Klub held a contest asking students to write why they feel teamwork is important. Lucky winners were chosen to win tickets to a PC Friars basketball game and they got to "high five" the players on the court!

Students also entered a contest to receive a free week's stay at Coldspring Resort in New Hampshire! Brianna from Kids Klub was this year's lucky winner! Brianna attends McGuire Elementary School and Kids Klub McGuire in North Providence. Read Brianna's winning essay:

"The reason why I think my family should win A vacation because My mom owns her own deli and maintains it herself. She works until 5 PM and gets very tired out. On my dad's side of things he also owns an Auto body shop he gets up at 7 AM and works till 7 PM he always tells me his body hurts and my dad also never stops working to take a vacation. This will tell him to stop working to take a v.k. My mom says she needs one because she is tired out this is why I think my family really deserves a vacation and also I think this would be the best gift I've ever given my parents!"

Another student contest held was designing our company Thanksgiving card. This is the 28th Annual Holiday Card contest. The winning artist was Evelyn Hoxie from Kids Klub Whelan. Her design was printed on the Thanksgiving card that was distributed to over 3,000 homes and businesses in November 2018.

“ My favorite part about Kids Klub is going outside because I can play soccer with my friends! I also like to play wall-ball with them.
Ariel Thompson, age 9

KIDS KLUB PROGRAMS

BEFORE SCHOOL

start the day right

Mornings are filled with activities to help “wake the brain” as children arrive and begin their day. Students are given the opportunity to choose activities based on their interests and engage in structured activities. A nutritious breakfast is included in the cost of tuition. Homework assistance is always available.

AFTER SCHOOL

educational & fun

Kids Klub staff ensure all children arrive at the site after school ends. Students complete “brain break” activities and enjoy a nutritious snack. Homework assistance and tutoring take place every day after school. Kids Klub provides an opportunity for physical activity each day through a designated time to focus on health, wellness, and fitness.

FULL DAY & VACATION

hands on learning experiences

Kids Klub offers learning opportunities all year round! During school vacations or summer months, our programs offer a wide variety of STEAM curriculum, hands-on learning experiences, field trips, site visitors, and service learning.

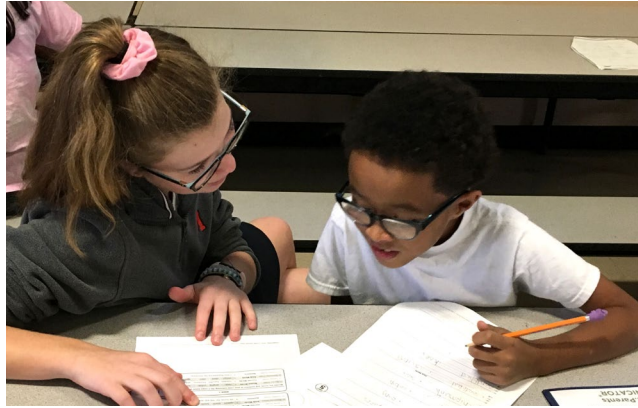

Summer learning is a great way for children to not only make lifelong friends but to also mitigate summer learning loss while they are out of school! Our summer programs include a nutritious breakfast, lunch, and snack each day. Children stay active and fit by participating in many activities both indoors and outdoors.

“Awesome, looks like the kids are loving it! Looks great - wish I could be a kid again!!”
Bruce Butler, Principal of McGuire Elementary

FOCUS ON ACADEMICS

An academic focus is very important to Kids Klub. Every afternoon, students receive homework support and/or tutoring. During this time, students are given the opportunity to work with a Kids Klub teacher in a small group setting. In addition, Kids Klub encourages peer-to-peer collaboration between the students to assist with learning. After students have completed their homework, there is time designated for journal writing and reading.

Kids Klub's curriculum is designed to engage students from grades K through 5. Activities are developmentally appropriate using a mixture of grouping styles (i.e. free choice, small group, large group, individual activities) based on age, interest, and ability. The curriculum is developed by a team of school age professionals that meet monthly to assess outcomes and objectives of the program using the RIPQA Tool and aligning with Common Core. Kids Klub's Educational Enrichment Coordinator oversees the curriculum, enrichment activities and the educational field trips. Kids Klub has an Educational Concepts Framework for the year which lists monthly themes and topics of study. A monthly calendar is created from the Educational Concepts Framework to provide activities to help students become more familiar with the theme. Copies of these are made available each month so that if a suggestion or feedback is given, Kids Klub can incorporate feedback to strengthen the program.

“

I liked making play-doh because you got to do an experiment, that you may not have done before. I also like learning about animals and doing the KWL chart and telling what I'd like to know and what I already know!

Arabella Fisher, age 9

MONTHLY CURRICULUM

Kids Klub		September 2018				
Essential Questions 1) What are your greatest strengths? 2) What is the meaning of your name? 3) What makes others unique?	Vocabulary general, origin, character, communication, communication					
	Spanish of power, of origin, in conversation, in communication					
Educational Curriculum Calendar The first day of each month for the Kids Klub is dedicated to the "K-W-L" Chart. This allows the students to assess their knowledge on the monthly idea and is updated throughout the month.						
This exploration day is planned each month to explore the students' interests based on discussion of the KWL Chart.						
The third Wednesday of the month is dedicated to anti-bullying activities using the Teaching Tolerance curriculum.						
The last Friday of the month will incorporate a STEAM (Science, Technology, Engineering, Art & Math) activity.						

Teachers complete weekly lesson plans aligned to both Common Core and the Kids Klub curriculum. Our curriculum is revised annually based on teacher and parent feedback to inform our annual Educational Concepts Framework.

The first day of each month the KWL (K-Know, W-Want to know, L-Learned) Chart is created. This assesses the students' knowledge on the monthly idea and is updated throughout the month.

Two exploration days are planned each month to explore the students' interests based on discussion of the KWL Chart.

The third Wednesday of each month is dedicated to anti-bullying activities, using the Teaching Tolerance curriculum.

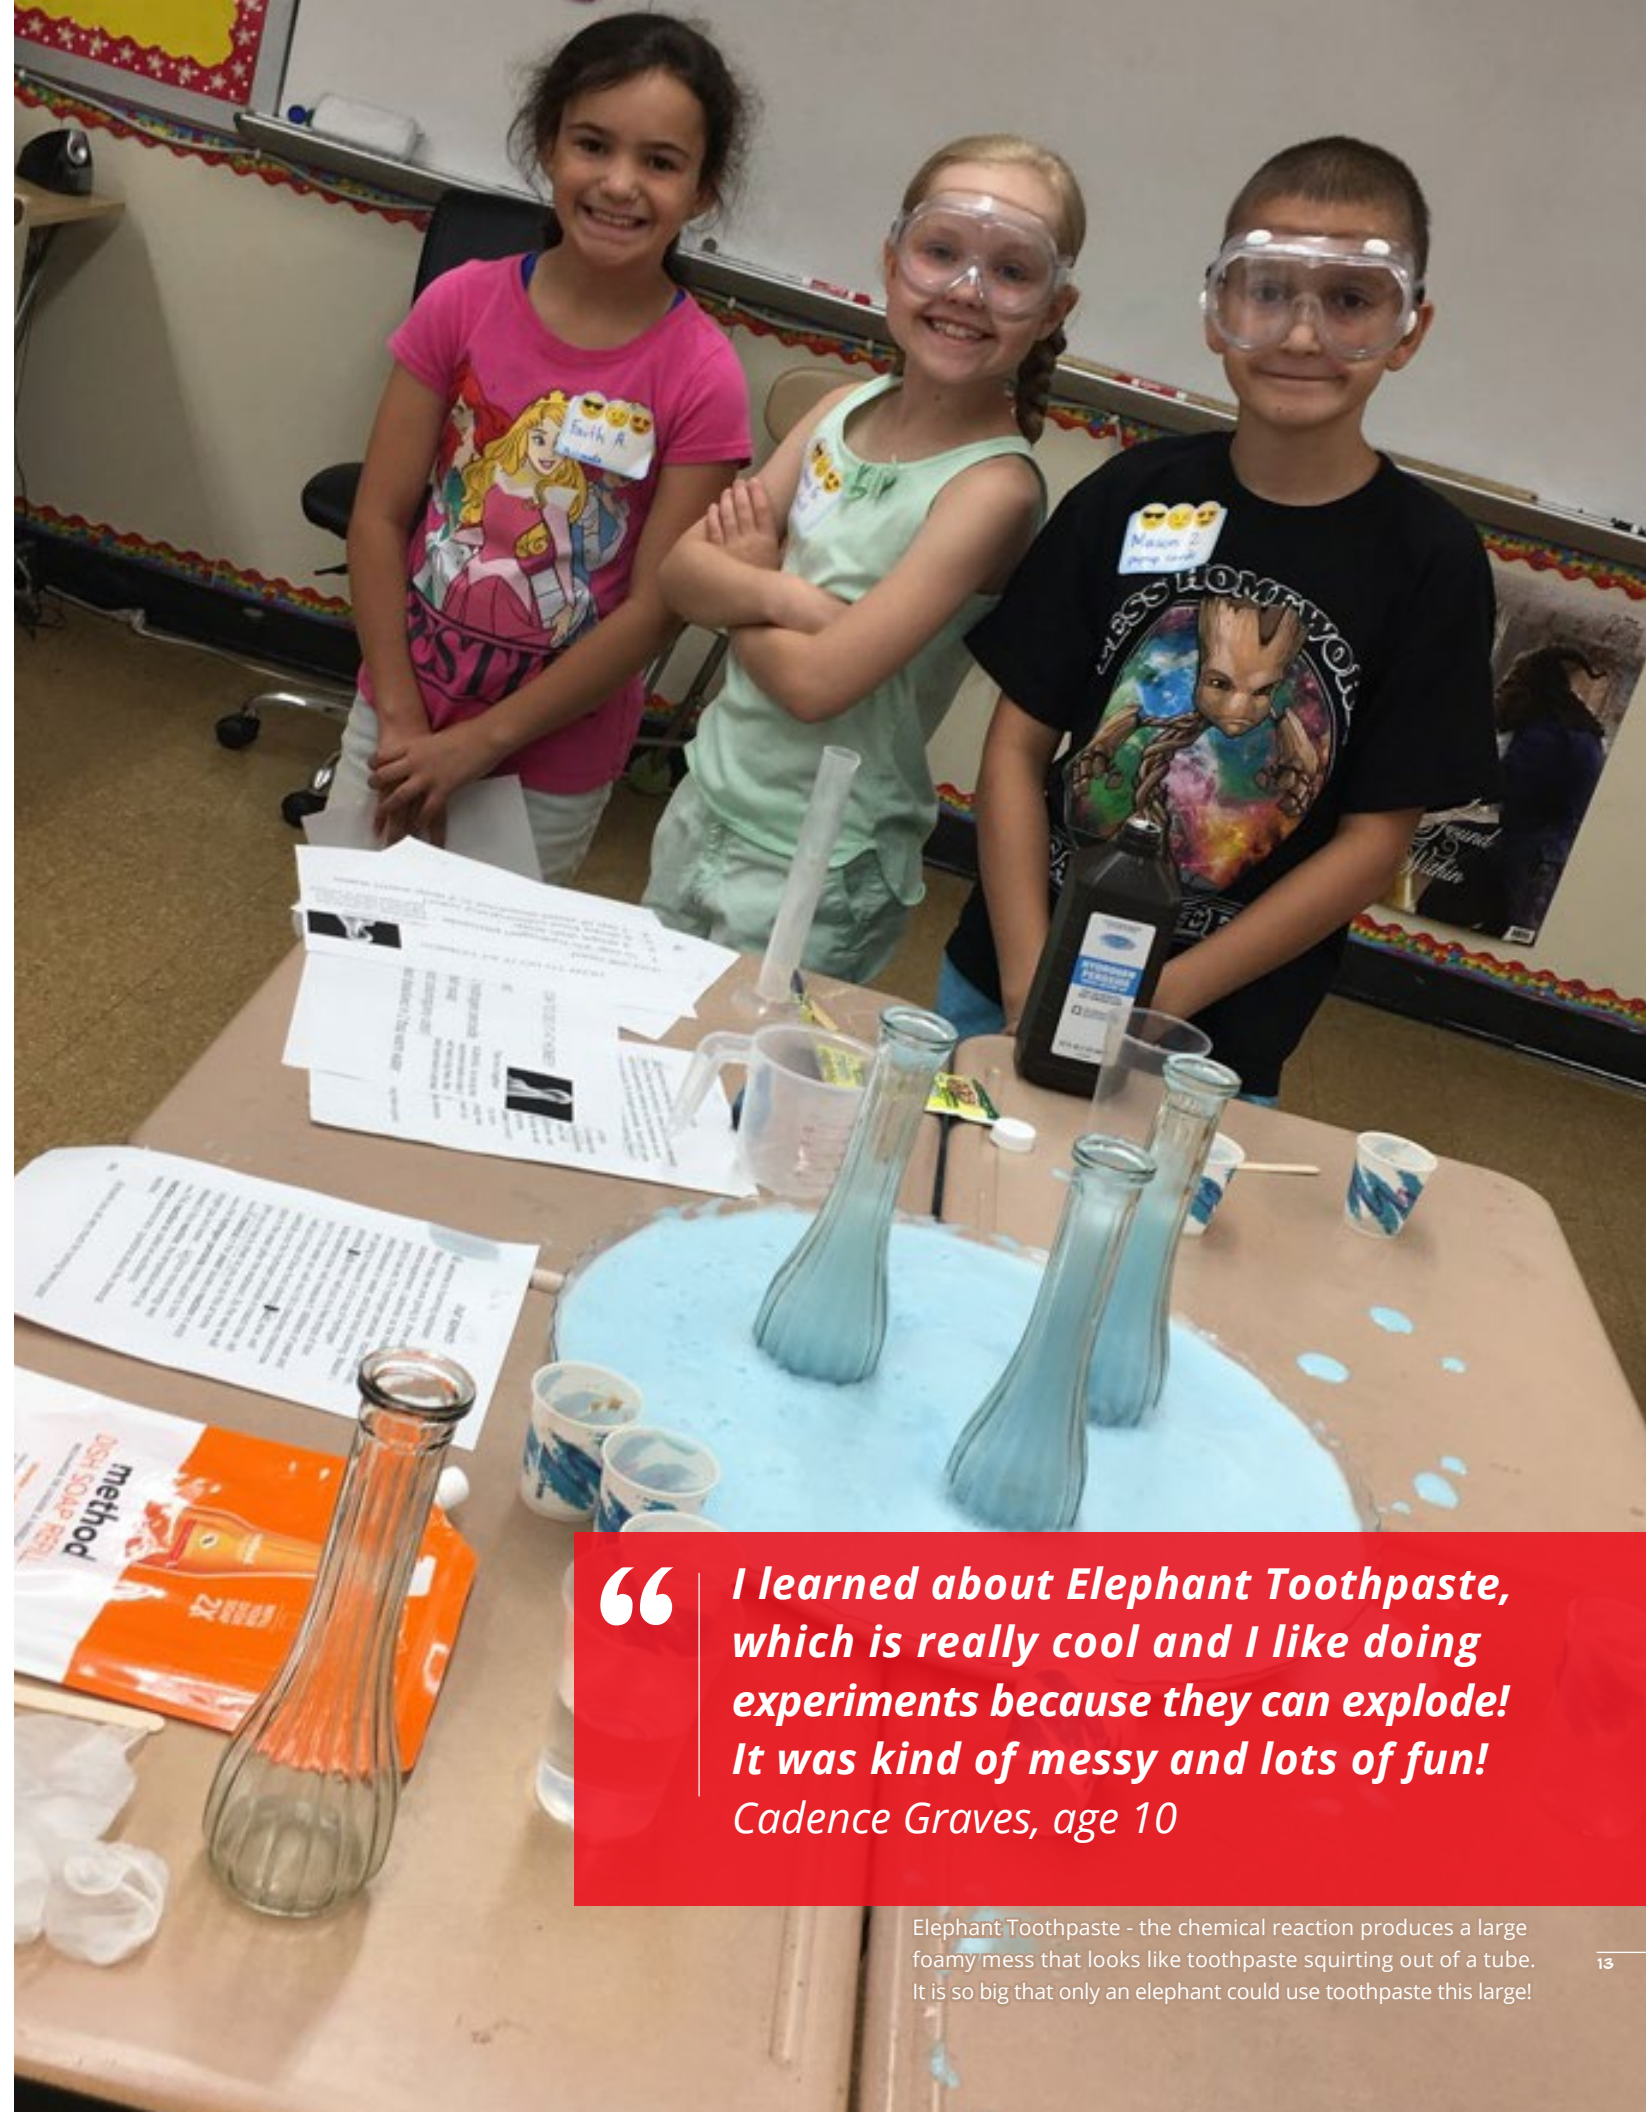

The last Friday of each month will incorporate a STEAM (Science, Technology, Engineering, Art & Math) activity.

465 HOURS OF STEAM LEARNING

Throughout Kids Klub's monthly curriculum and enrichments, STEAM is incorporated. The children use math when they are measuring during cooking, and science for mixing materials together. During music they use math to count notes. The children use art and math when they are creating three dimensional objects. Students use technology with the use of the site tablets for educational learning and researching. These curriculum activities reinforce the knowledge and skills needed for in-school success.

"Wonderful! Love the integration of ELA and Science! Thank you so much for such a wonderful experience for our students! It was such an amazing and authentic learning experience."
 Louise Seitsinger, North Providence Assistant Superintendent

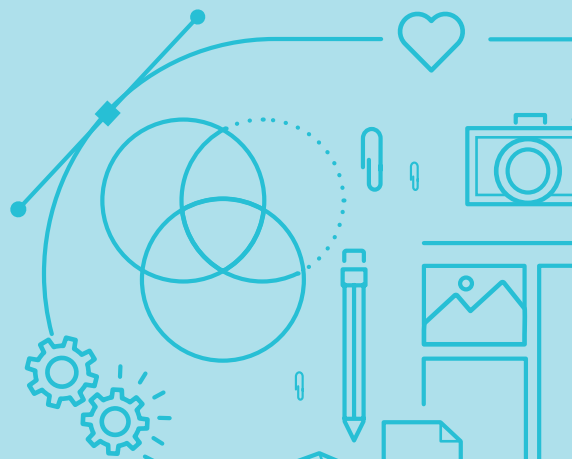

“ I learned about Elephant Toothpaste, which is really cool and I like doing experiments because they can explode! It was kind of messy and lots of fun! Cadence Graves, age 10

Elephant Toothpaste - the chemical reaction produces a large foamy mess that looks like toothpaste squirting out of a tube. It is so big that only an elephant could use toothpaste this large!

ENRICHMENT PROGRAMS

Kids Klub offers quality comprehensive after school Enrichment Programs that emphasize fun activity-based learning that reinforces the knowledge and skills needed for in-school success. Kids Klub's Educational Enrichment Coordinator oversees the enrichment programs to ensure the programs reinforce what students are taught in school.

Enrichment programs ensure all students are able to experience fun activity-based learning through quality comprehensive after school activities.

Farm Fresh RI held a Junior Iron Chef competition with the winning recipe incorporated into school lunch menus. This enrichment taught students healthy eating habits and cooking skills.

Save the Bay invited students to explore the world of marine science, and experience what it is like to be a marine biologist through fun games, hands-on activities, and crafts.

The Audubon Society of RI Explorer Program asked children to discover the types of animals that live in their neighborhood, investigate the outdoors, and hands-on activities and crafts focusing around nature.

As part of the Fun with Fish enrichment, students learn about fish, the small water insects they eat, and what it takes for wildlife to live and thrive with River Rangers from the Woonasquatucket River Watershed Council at Cricket Field.

Snapology engages students in "playful learning" concepts from astronomy, earth science, biology, chemistry and physics, all while using LEGO bricks and other interactive learning tools.

"I just wanted to let you know that the ladies at Kids Klub at McGuire were wonderful to work with as well as the students! They were all extremely helpful, polite and responsible! I also wanted to give your program at Bernon kudos as well! My mother is actually working for me as a teacher and could NOT stop raving about your staff and the students at Kids Klub Bernon. She made it a point to call the principal the following day to let him know! Thanks again, you rock!"
Whitney Goduto, Snapology Northeast RI

ENRICHMENT PROGRAMS OFFERED IN 2018:

- | | |
|---|---|
| 1 on 1 Basketball | H2K Lil' Hip Hoppers |
| Animal Care Responsibility by J G Deming & Associates | H2K Yoga |
| Artistic Expression by Marissa Bianco | Mad Science: World of Science! |
| Audubon Society of Rhode Island | Recreational Gym Time Fun by Marissa Bianco |
| Breakdancing by Leggwork Productions | Rhythm Room |
| Bwana Iguana's Reptile Adventure | Roger Williams Zoomobile |
| Farm Fresh RI | Save The Bay |
| Fun with Fish! by the Woonasquatucket River Watershed Council | Snapology's Amazing Animal Robotics |
| Gamm Theatre's Drama Club | Snapology's Amusement Park Adventures |
| H2K Cardio Dance | Snapology's Combat Robots |
| H2K Cardio Kickboxing | Snapology's Drone Commanders |
| | Snapology's Elementary Engineers |
| | Snapology's Snapology Scientists |

North Providence school teacher, Marissa Bianco, led Recreational Gym Time Fun and Artistic Expression enrichments at multiple Kids Klub locations throughout the year. Students build creativity, teamwork, and leadership skills while having fun with their friends.

COMMUNITY PARTNERSHIPS

Throughout the year Kids Klub partners with local community organizations. These partnerships strengthen our programs while supporting our community. We have been honored to have many community visitors to our sites as well as opportunities to attend local events in our communities.

Community support during
summer car wash fundraiser

Louise Seitsinger @NPAsstSupt - Jul 31
Thk u all for your great service learning projects this summer!! They did an awesome job washing my car!!
#npsdlovesevicare #npsdpride 🥰

WHY IS TEAMWORK IMPORTANT TO YOU?

Kids Klub holds an annual contest asking students to write their answers to this question. The students with winning essays receive 2 free tickets to a **PC Friars** basketball game. They even were invited to "high five" the players on the court!

This is a great opportunity for students to attend a local event in the community!

Read some of the winning essays below:

"Teamwork is important because to help each other get better at what they love to do."
- Abigail J., age 5

"Teamwork is about working as a team, and it's about pushing each other to do your best."
- Khalil J., age 9

"Teamwork is important to me because it is people working together to achieve one goal. It is great because if people try hard enough, they can do great things. Such as a team of firefighters who can save lives by sticking together, and working as a team. Teams can accomplish small things, then eventually accomplish bigger and better things. One thing that I hope people accomplish is stopping global warming."
- Max R., age 11

"In soccer, basketball, baseball, or any sport, you can't win the game by yourself. This is where teamwork comes in. When you're working as a team, you make chances or mistakes, because you lose and win as a team. When you are working as a team, you are also building great friendships. At the end of the day, working together is the real victory."
- Sophia W., age 10

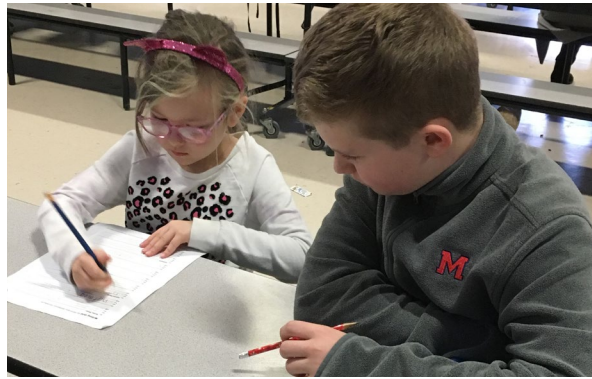

TURKEY DANCE CONTEST FOR CHARITY

Every Thanksgiving, Dr. Mary Ann Shallcross Smith holds a "Turkey Dance" video contest for the company. Participants are asked to submit a video of them doing the "Turkey Dance." This year's winner was students from Kids Klub Whelan! They received \$100 for the site and also \$100 to donate to the charity of their choice.

The students chose to send the \$100 donation to the **North Providence Animal Shelter**. This was a great continuation of a previous community partnership, which began in 2016 as the students' service learning project.

Check out the "Turkey Dance" video here: <http://bit.ly/KKTurkeyDance2018>

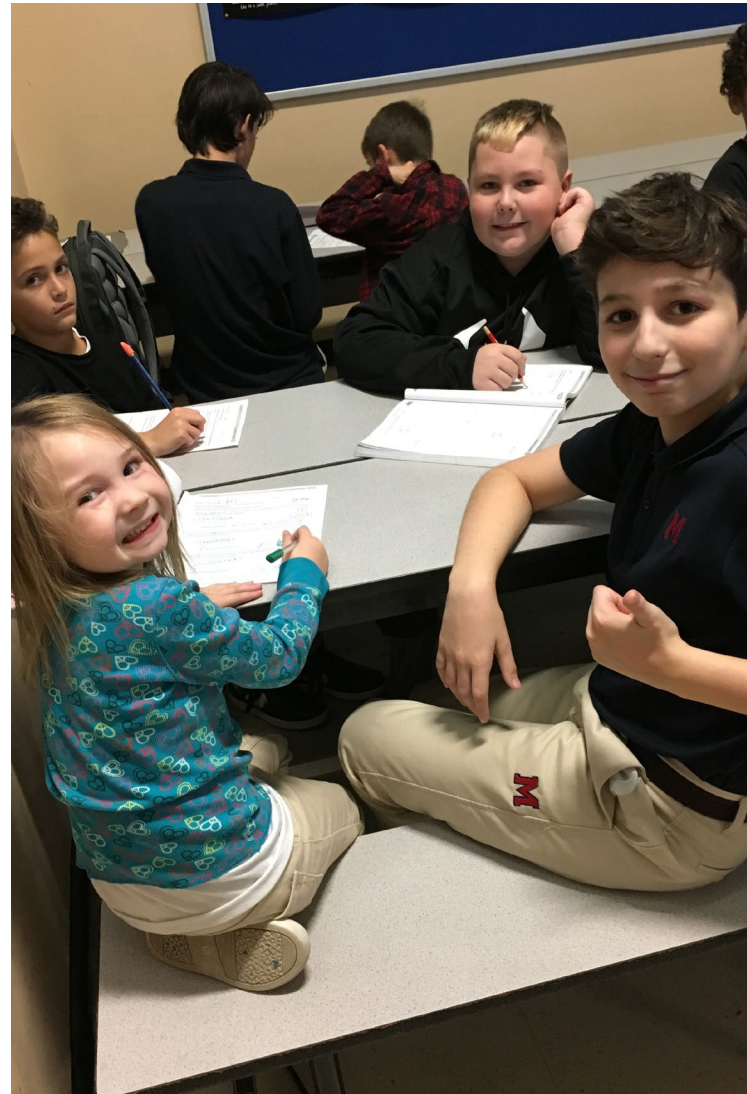

AFTERSCHOOL STUDENT LEADERS

One of our strong community partnerships is with **Mount Saint Charles Academy**, located in Woonsocket. Students from the high school visit Kids Klub Bernon after school once a month as part of their service learning program.

The high school students spend time mentoring the students at Kids Klub Bernon by helping with homework. Another focus of this service learning project by Mount Saint Charles students is the importance of building skills in reading. To achieve this, the high school students spend one-on-one time reading with Kids Klub students as well as group read alouds.

This is an ongoing partnership that has developed over many years. Both the high school students and Kids Klub elementary students enjoy this experience! This partnership encourages the elementary school students to continue their education and to explore all opportunities available!

"I'm really happy that Ava's growing confidence in speaking up for herself and her ideas is being noticed. It is something she struggles with and has been working on. Thanks in no small part to all of you! Keep being awesome!"
Erica G., Ava's mom

FIELD TRIPS EXTENDING LEARNING

Field trips and on site visits provide unparalleled opportunities for learning. They provide children with opportunities for hands-on experiences and background knowledge that they may not receive in a classroom. Field trips are both educational and fun! Kids Klub field trips are aligned to weekly and monthly curriculum themes.

At Kids Klub, field trips provide opportunities to expand and further enrich the curriculum. Students are immersed in sensory activities and build an appreciation and awareness of their community.

“ I love field trips! Field trips are fun because they're interactive and hands-on. And also, we go to cool places like Colt State Park and Coggeshall Farm where we saw everything from history to farm animals!

Max Ramirez, age 11

At Old Slater Mill National Historic Landmark, students visited the machine shop for a hands-on experience to learn about the conditions of the historic mill.

ABOUT HSLI SUMMER LEARNING

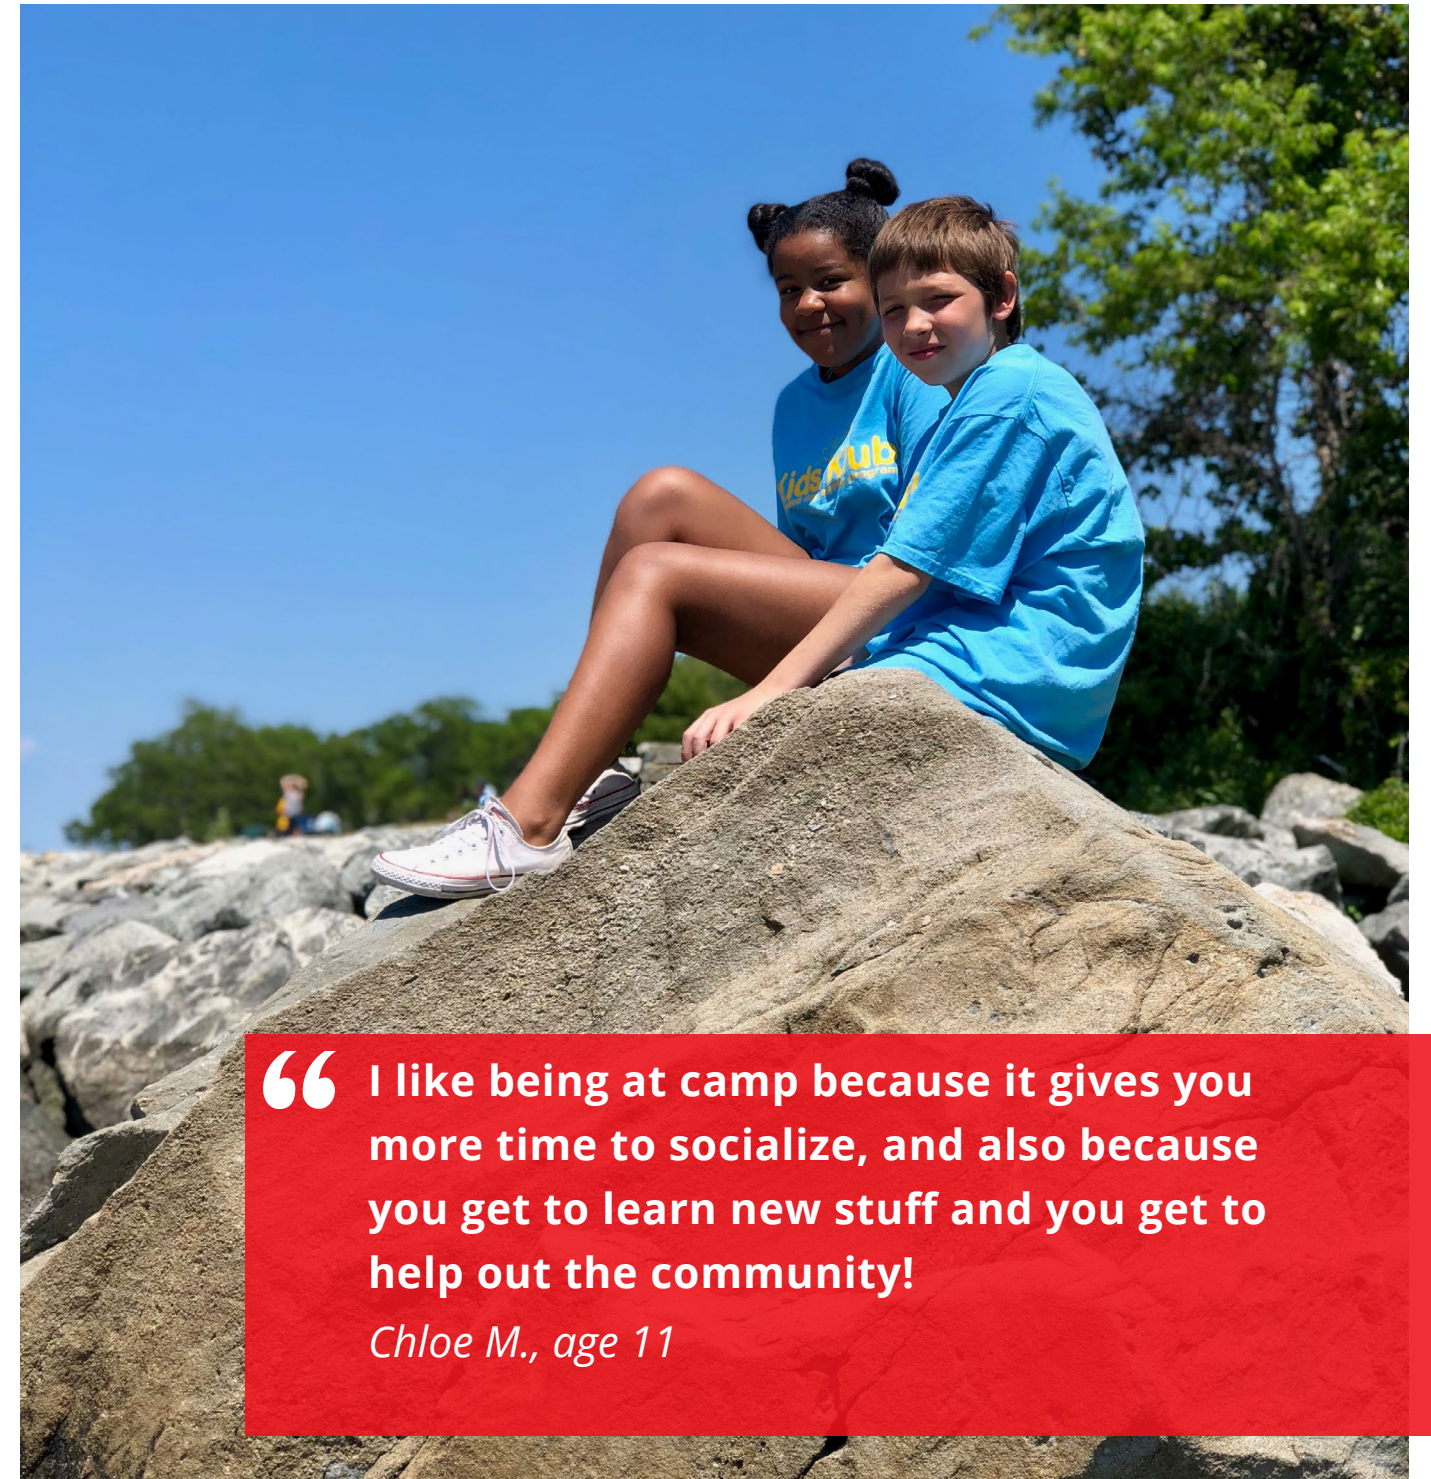

"BECOMING OUR BEST SELVES: THROUGH ENGINEERING, LITERACY, SCIENCE, AND SERVICE LEARNING"

The Hasbro Summer Learning Initiative (HSLI) Grant is awarded to programs that make it imperative to have service learning at their Summer Learning Program as well as reduce learning loss over the summer. This grant, with the collaboration of North Providence School Department (NPSD), has offered Kids Klub the opportunity to work alongside NPSD teachers who educate and assess approximately 65 4th through 6th grade students over a 6-week program.

Kids Klub collaborates with the RI Afterschool Network (formerly known as the Afterschool Leadership Circle), a statewide network of Rhode Islanders who support quality afterschool and summer learning opportunities for young people. The RI Afterschool Network encourages all educators to rethink how, when, and where children and youth learn to ensure their success.

LEARNING DOES NOT JUST HAPPEN IN A CLASSROOM.

“ I like being at camp because it gives you more time to socialize, and also because you get to learn new stuff and you get to help out the community!

Chloe M., age 11

Colt State Park

Summer is a unique opportunity to provide hands-on learning opportunities for children that are both academic and fun. Summertime is when the very real phenomenon called “summer learning loss” occurs if children and youth are not engaged in active learning.

Research demonstrates that all children, regardless of their socioeconomic status, lose up to two months of math computational skills, while children from lower-income situations also may lose up to two months of reading skills. Kids Klub's focus on summer learning helps prevent the summer slide!

NORTH PROVIDENCE SUMMER PROGRAM RESULTS

As part of the North Providence Kids Klub HSLI summer program, students who will be entering 5th grade and above in the fall participate in a pre and post online survey. This is called the Survey of Academic and Youth Outcomes-Youth (SAYO-Y).

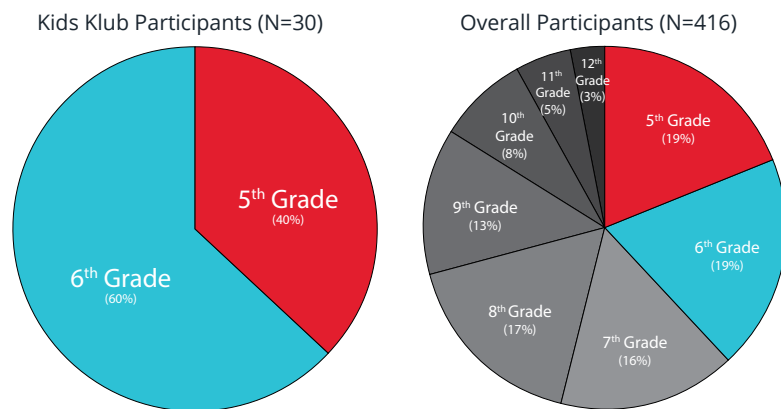

Of the approximately 65 students who attended the North Providence Kids Klub HSLI summer program, 30 students completed anonymous pre/post surveys. The pre-survey was completed during week one of the program and the post-survey during week six.

The survey results measure the 30 North Providence Kids Klub participants compared to 416 overall summer participants (including the North Providence Kids Klub data).

For full survey results, visit:
www.kidsklubri.com/sayo-y2018

Youth in the Kids Klub program scored the highest in **"Taught me that working hard in school will help me reach my goals"** and **"Taught me that going to school is important for my future"**

DEMOGRAPHICS:

Note: Percent rounded to the nearest whole number. Entering grade in September 2018.

Additionally, of the Kids Klub Participants, 40% are male, 60% female. The Overall Participants reported 47% male, 52% female, 1% other.

Note: ^ Mean is calculated using the scale: 1=Don't Agree; 2=Agree A Little; 3=Mostly Agree; 4=Agree A Lot,

* Mean is calculated using the scale: 1=No; 2=Mostly No; 3=Mostly Yes; 4=Yes,

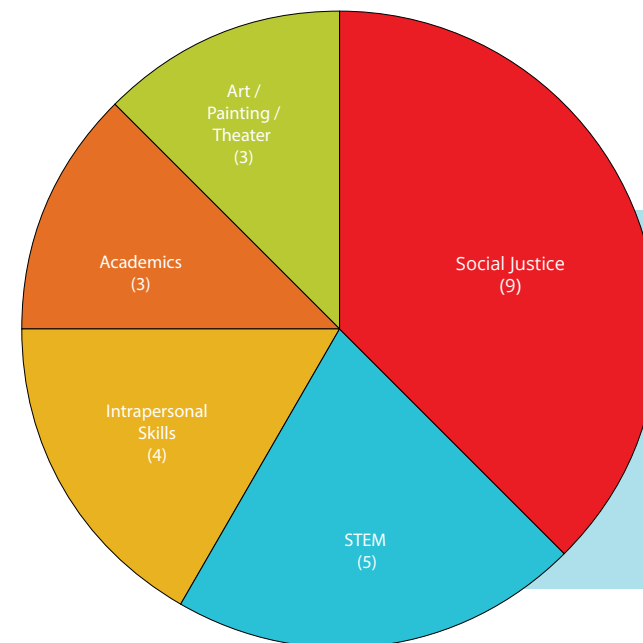

Youth were asked several single item indicator questions at post-test about their program experiences. Retrospective measures focused on academic skills, social/personal skills and sense of competence.

OPEN RESPONSE QUESTION

"What is something new you learned this summer?"

In an open ended question, Kids Klub students were asked to list something new they learned this summer while in this program. Some participants listed more than one response. The chart below shows the responses most frequently reported by type.

Highlights from open responses include:

"[I learned] that people were giving homeless people a chance and jobs and other survival needs."

"[I learned] to be my best self."

"I learned that it is good to help other people in need."

"I learned to always do your best to do anything that benefits others."

ABOUT SERVICE LEARNING

The students made backpacks filled with school supplies, for the start of the school year. They were passed out to each of the North Providence elementary schools to distribute to families.

Stop & Shop, The Bread Boss, and Borelli's Bakery donated baked goods and pizza for the students' bake sales.

Students worked together to hold a successful car wash to benefit local food banks and local shelters. They raised \$300 in just two hours!

Kids Klub encourages the development of life skills, respect for others, and positive social interactions through a variety of service learning projects and programs. Service Learning is a hands-on and student-centered approach to learning, through instruction and reflection, which provides a meaningful experience to community service. This process is important to Kids Klub, in showing students how they can make an impact in their own communities, no matter how large or small, while also teaching leadership skills and responsibility.

Through our partnership and grant with HSLI, Kids Klub authentically and robustly makes service learning the core of our curriculum. Children and youth, over the course of a six-week, thirty-day program, become advocates in their own learning. The curriculum's focus on service learning allows children and youth to become more aware of their community by identifying

issues and concerns, and then creating active solutions that ultimately lead to stronger civic engagement.

In 2018, the North Providence Kids Klub Hasbro Summer Learning program's service learning project was to help the homeless. The students held two bake sales, with donated goods, and a car wash to raise money for the homeless community. A group of senior campers also delivered food drive boxes around the North Providence community, to collect non-perishable items.

At this year's culminating event, the students held a carnival of homemade games at their camp site, Greystone Elementary School, where a non-perishable item or donation was asked for admission, as well as raffle items. There was a huge turnout with school department officials, local leaders, the Mayor, family and friends.

The students created homemade games out of recycled materials for patrons to play at the culminating event.

Non-perishable goods and funds collected throughout the summer.

STUDENT-LED SERVICE LEARNING

Allowing students to evaluate and choose a service learning project is important to Kids Klub. This year's service learning project was to help the homeless community, adhering to our overall theme of health and "Becoming Our Best Selves: Through Engineering, Literacy, Science, and Service Learning," theme. After the students brainstormed their ideas and they were narrowed down to helping with homelessness and hunger, the students divided themselves into different committees: fundraising, advertising, food drive, and designing a carnival for the culminating event.

The students then divided themselves into committees. The fundraising group was in charge of holding two bake sales and a car wash where all proceeds would help the homeless. The food drive committee created boxes to collect non-perishable items, researched items people could donate, and delivered boxes in the community to collect the non-perishable items. The advertising committee created invitations for the bake sales, car wash, and carnival culminating event, and went into the community hand delivering these invitations. They wrote thank you letters to any places that donated to their cause. The carnival group created homemade games out of recycled materials for patrons to play at the culminating event, where admission would be a non-perishable item or donation. A small group of students also created a Public Service Announcement about homelessness and how you can help. A group of students also shopped on a budget at Walmart during camp, where they bought items to create Blessing Bags, and backpacks with school supplies.

Through the children's effort, they raised a total of **\$850!** Gift cards for Stop & Shop were purchased and distributed to the North Providence School District Food Pantry (as well as collected

non-perishable items), Amos House (along with collected toiletries), Kent Center (along with the Blessing Bags), and Operation Stand Down in Johnston. The 24 backpacks filled with school supplies were distributed to each North Providence elementary school, giving them to families in need.

The students recognized that some of their own friends might be homeless or struggling, so made plans to continue raising funds throughout the school year.

Check out our video about the event here: bit.ly/KidsKlubHSLI2018

IMPACT STORIES MAKING A DIFFERENCE

Anthony was a new student this year at the summer learning program, just having completed 4th grade. He was quiet and hesitant at making new friends and taking initiative at the beginning of the summer learning program. We noticed while he was quiet, he was a great listener and wanted to be at camp on a daily basis. While on a field trip at the park, Anthony discovered a homeless man sitting across the street with a sign asking for food. He came up to the staff and asked since we had been working on helping the homeless for our service learning project, if we could go give the man extra food from lunch. The staff thought it was a great idea and went with him and a few kids to give the man the extra food. As we walked across the street, Anthony was nervous but excited to put what we had been learning into action. The man was very appreciative of the food thanking them. On the way back to the park, Anthony looked at the staff and said, *"I feel really good about what we just did. Everyone deserves a second chance."* And with that, we knew he understood what it meant to take part in service learning to its fullest.

Nola has been in Kids Klub since she was 7 years old and our summer learning program for the past 3 years that she could attend, graduating on to middle school after the summer. While Nola's personality is much of a social butterfly, she would interact mostly with her group of friends from the past years. When looking at her ecomap after the pre-assessment, it showed just that with mostly connections to friends and teachers she knew from Kids Klub or school. One day, Nola discussed with the Camp Administrator how she hoped she could come back next year as Peer Leader stating, *"It's fun being here and not on my phone or computer all day at home. It also helps me socialize with other people I've never met before, and get to know people other than my little group and help me make more friends, and find more of my interests. And also, someone here always makes sure I'm doing well."* What Nola felt was shown on paper when it came time to make the post-ecomap, showing stronger connections she made with people she had already known, but also new connections with students and adults. She had built relationships and felt safe branching out to new people. We couldn't be prouder of her maturity over the years, and being a great role model to her peers.

I liked going to the North Providence Kids Klub Hasbro Summer Learning Program because it's a lot more fun than sitting at home doing nothing. It makes us do work so we can learn new skills that will help us throughout the school year. It helped us be more social, so it is beneficial for kids going into middle school. There was always an adult or another student we could talk to if we were upset or unhappy. No one was ever left out because the teachers were on top of everything. It was an overall great 6 week experience!

Alexandra D., age 11

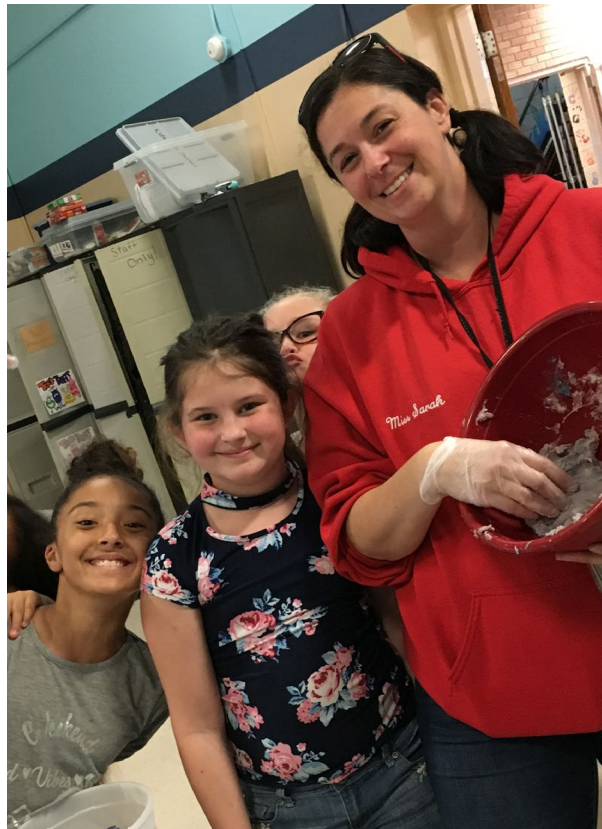

#KIDSKLUBRI SOCIAL MEDIA INFLUENCE

Social Media is a tool that can effectively communicate with families, funders, and community members. Kids Klub uses social media to educate and advocate!

Executive Director and Educational Enrichment Coordinator of Kids Klub (Alicia Gloria & Aria Suzman) presented a workshop to other summer learning programs on how to effectively use social media both afterschool and during the summer. #alwayskeeplearning

ANNUAL FUNDRAISER KLUB HOUSE ROCK!

Every year Kids Klub hosts a fundraiser to benefit the Kids Klub Fund. The 2018 event was held on Thursday, May 10th from 5:00 - 8:00 PM at Iron Works Tavern in Warwick.

This year Kids Klub decided to host a different event, holding a wine & beer tasting. Beer tasting was provided by Grey Sail Brewing, apple wine tasting by Tapped Apple Cidery & Winery, and wine tasting by Johnson Brothers, RI.

Total Profit	\$12,044.48	\$5,852.88	\$6,941.26	\$5,518.47

This was the 13th annual fundraising event. This year the Klub House Rock! fundraiser raised more than **double** the profit from previous years' events - **\$12,044!** This money will support educational field trips, scholarships, and enrichment programs for children in Kids Klub.

This event provided us with an opportunity to celebrate with our continually expanding community who come together to donate time, resources, and talent in support of our important mission.

THANK YOU to everyone who attended and supported our fundraiser!

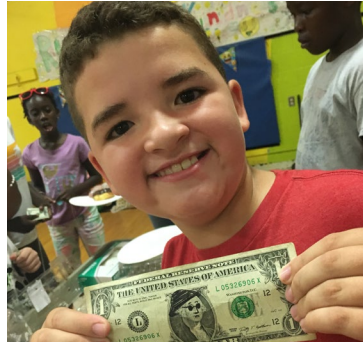

The Kids Klub Fundraiser event started in 2006 as a comedy show and was known as Fool's Night Out. In 2013, the Fundraiser was renamed Party At Pearl, held at the Pearl Restaurant & Lounge. For our 2014 Fundraising event, it was decided to rename our Event to Klub House Rock! From 2015 to 2017 we hosted a 5K walk or run. Based on community input, the decision was made to return to an evening of networking, prizes, cocktails, and entertainment.

Kids Klub FUNDRAISER

THANK YOU TO OUR SPONSORS

Our program would not be possible without you! Thank you to everyone who donated their time, funds, and gifts. We truly value the support we have received from local community organizations, volunteers, community members, local leaders, public schools, and people like you.

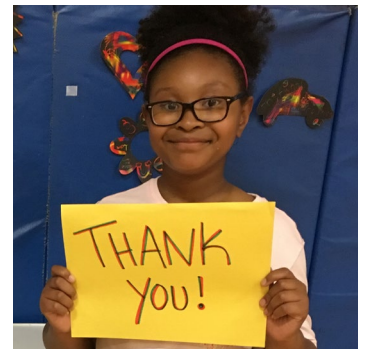

We hope that we can count on your support as we plan for next year's programs. Your donation supports the Kids Klub Fund that enhances our educational programming through offering field trips, scholarships, and enrichment programs that would not be possible without your help.

GET INVOLVED

We appreciate any support you can give Kids Klub!

Here's how you can get involved and make a difference in a child's future:

- ❑ Volunteer at a Kids Klub site (*for security reasons, background checks and fingerprint checks are required, our HR office will contact you with details*)
- ❑ Volunteer to run an Enrichment Program
- ❑ Join the Kids Klub Advisory Board
- ❑ Volunteer for the Klub House Rock! fundraiser
- ❑ Volunteer in a different way
- ❑ Make a secure donation online at www.kidsklubri.com/support-kids-klub

Please visit our website www.kidsklubri.com to learn more, or call us at 401.723.2277.

Visit our office at
1201 Douglas Pike, Suite 4, Smithfield, RI 02917
or email info@kidsklubri.com.

OUR VISION

To be the recognized and respected leader in providing services to children and families in an educational and nurturing environment that supports the community.

OUR MISSION

Our mission is to provide family, youth and child services in a safe, structured, and nurturing environment through a team of dedicated professionals.

OUR TEAM

Our Kids Klub sites are managed by a school age director, referred to as an Administrator, as well as an Assistant Administrator, who are responsible for lesson planning, curriculum, and creating a safe, healthy, structured and nurturing environment. Teacher Assistants in each classroom help to supervise and interact with children to facilitate their play and learning. Kids Klub's Educational Enrichment Coordinator oversees the curriculum, enrichment

activities and the educational field trips. The Executive Director oversees program management and all aspects of the Kids Klub program.

The Advisory Board offers advice and support to the Kids Klub executive staff. The Fundraising Committee and Fundraiser Volunteers plan and execute the annual fundraiser.
